About Me

I am a quirky creative who loves Polaroid cameras and Hand-colouring of black and white and colour images.

I am passionate about Animals and work with a few Animal Adoption agencies helping beautiful animals find their forever homes by showing people their personality through a unique photograph.

I mainly photograph pets, children, doing portraiture and Roller Derby.

I describe myself as having a unique relaxed, documentary style, trying to take photographs from different points of perspective to create a unique image.
